

SAN DIEGO PEAKS CLUB

The Club For Adventure Hikers

As you can see I have a new computer to play with, a Macintosh LC III. It has been a pain to learn how to use it, but they tell me it will get better (so I don't delete an hour's work). I owe a tremendous debt to Linny Sarnecki for allowing me to use her word processor for issues' 1-14.

HIKER OF THE MONTH

THE HOTM FOR NOVEMBER goes to Terri Sutor. Terri has deserved it for many things, but I have been waiting until she finished the HPS the **FOURTH TIME** before giving the HOTeM Pole to her. The "first woman of San Diego hiking" was the 1st woman to do the HPS list 2x, and the 1st to do it 3x. She is responsible for introducing me to the HPS and I have had a truly memorable life ever since. Thank you, Terri, for getting me started.

THE HOTM FOR DECEMBER goes to the group that is going to climb Aconcongua, the highest mountain (22,841 feet or 6962 meters) in South America. The group will consist of Richard Carey, Dave Jurasevich, Mark Adrian, Shelley Rogers, Bill Rundell, Bill Hill and Fred Bright. They will leave LAX on Dec 16 and hope to summit on New Year's Day. They, of course, will have the HOTeM Pole with them.
